### DUMMY MODELS

Imagine the heights an artist would reach who employed a dummy model in his work. Dummy models serve as patterns for ready-made clothing manufacturers. The tailor, like the artist, goes by living models. Each customer is a model at my place and each model is provided with an organ for registering complaints when they are in order. Suits cut and made from the model that is to wear them: \$18, \$20, \$25 and \$30.

## CONVINCING REASONS— These Bargains Will Win your Trade

Heretofore it has not been our practice to give an extended mention to the bargains we are presenting—just a brief mention has sufficed, as it was found that our customers have proved the best advertisement we could get. But at the present time we are offering so many exceptional bargains and this sale will last for such a brief period (30 DAYS) that we find it necessary to use this means of reaching the buying public. Now the object of sacrificing the goods enumerated below is to make room for our Spring and Summer stock, which will soon arrive. Ours is a first-class store and the largest of its kind in Nevada. It is the aim of all first-class houses to carry up-to-date goods; hence this CLEARANCE SALE. We said we would give Convincing reasons for your trade. Have we succeeded yet? If not, READ:

## GOLD AND GLORY.

It is becoming well understood by those in authority that the Republican party will throw off any disguise it may have been under respecting the fact of imperialism. The course open for its work is such that the reading "this is the way to empire and imperial power" of the markings that blaze the way, is so plain that subterfuge will not avail to cover its intention to imperialize the republic. The late effort to deceive the nation into an alliance, offensive and defensive, with imperial England is too significant to require comment, but we will say that the work is in perfect accord with the deceit of the power that is in league with England to destroy our form of government by imperializing the system.

The question arises upon the possibility there is to a maintenance in power by the people of those whose avowed purpose is a subversion of the government system given us in trust for posterity. Much has been and will be done without consulting the people, provided the power that is now controlling government is continued in control.

When the people have learned that there is not anything entered upon by the governing power of the country that is not against their present and future interests, it may be that the imperial villainy of organized capital will receive a rebuke. There is no matter that includes so much business in the imperialist's work as there is in vilifying the principles contained in the Declaration of Independence (which have received their support from the constitution) to destroy our government fabric.

Making sport over the Declaration of Independence is in accord with making sport of the principles there are in the constitution. It should be expected in these times that these instruments would be made an object of attack, as they are in the way of the imperialist. Were there not so many acts of the administration of McKinley that tend to imperialism, it might be reasonable to admit that any one of the acts might be a mistake, but when all the acts of his administration are of the same color, it is sufficient cause to make a conclusion that they were woven in the same loom and are taken from the imperialist's web, and the fabric is the work of Englishmen and organized capital at home.

It will take time to do the work that has had an unopposed beginning, as revolutions in their inception move slow. The imperialists will not accomplish the work at one meeting.

Time will be required by the conspirators but the work has moved apace since Congress caved in and will continue to move should there be no hindering cause to its ultimate purpose till its work is completed.

It required time for those who sold the liberties of the republics of Greece to Philip of Macedon. Philip was required to prove that he had descended from Hellenic stock before the people would entertain a proposition of an alliance during which time the more pure and patriotic among the Greeks were in opposition to the scheme of Philip and the imperialists, among whom was Demosthenes, the orator, who with increasing effort directed the attention of the people to the fatal consequences of an alliance with Philip, who proved his Hellenic descent and won the praise of his acrobatics to the destruction of the patriot Demosthenes who took poison and died to escape the vengeance of the tyrant.

Alexander, son of Philip, consolidated the States before the Persian war which closed the existence and history of the republics of Greece. There is not an instance of a survival of a republic when it became identified with a monarchy or became ambitious of extending its rule to remote territory, which latter was the means that destroyed the Roman republic which at all times was more imperial than our republic could be under our system and maintain the form.

The simplicity of our system is such that a little war in the Philippines has unbalanced the fabric till its foundations have become a source of ridicule to the ignorant and unthinking. It is well understood by those who desire to enter upon a course of gold and glory as Chauncey Depew said when he came from England that the republic in its simplicity cannot sustain such a course and remain in its simplicity for the protection of the rights of the people.

The chief plan of the gold conspir-

ors is to take the republic into a course that will involve it in war, the pomp and circumstance of which will lead to the overthrow of the best, because the most simple of all governments.

The time is not distant, provided the money power continues to rule, when the United States will be a despotism where liberty will be a skeleton labeled "received its death from gold and glory."

## PERSONALS.

James Butler, a son of English nobility, is among the guests at the Riverside.

Bishop Leonard of Salt Lake was in town yesterday.

Ex-Governor Blasdell came up from the west yesterday and continued to Carson.

G. T. Mills of Carson spent yesterday in this city.

R. H. Cowles of Wadsworth is transacting business in this city.

H. H. Hunter, the mining man, came in from the north yesterday and left last night for the east.

Dr. Chandler, who has been confined to the house for several weeks, is again at his office attending to business.

Mrs Marguerite Damoud left for San Francisco last evening on a visit to friends.

Mr. Levy of the Palace Dry Goods House came up from the bay city Sunday evening; after spending a few days in Reno and Carson he will return to San Francisco.

D. E. Williams of the San Jose Herald arrived in Reno yesterday on a visit to his cousin, E. T. Hollingsworth. Mr. Williams will remain about a week.

Edgar Sadler, son of Governor Sadler, came over from Carson Monday and departed for his home in Eureka last evening.

Judd Riddle, assessor of Eureka country, is spending a few days in Reno. The Sentinel's supposition that Judd had left the base range with matrimonial intentions has not come true to date.

R. W. Travers, G. J. Wolf and J. A. Cummings, representing the Locomotive Fireman's Journal, spent Monday in Reno interviewing our people.

## Warming Up.

After a period of idleness smoke was seen arising again yesterday from the sack of the Reno reduction works. Another effort will be made to work the Trinity and Arabia ores of the E. M. and R. Co.

It is to be hoped that the company will have better success this time.

The previous failures were doubtless due to employing eastern experts who know books in preference to western "scrabs" who know ores.

## The Owl Club.

On the evening of the 27th the Owl will congregate for the second boot of the season. A swell time is expected. One of the features of the evening will be a cake walk. Roy Reese expects to carry off the honors. He presents a very undignified appearance upon the streets as he cannot afford to lose a moment of practice.

## The Model's Hand Trial.

Miss Siddal had a trying experience in order that the artist might get the proper set of the garments in water and the right atmosphere and aqueous effects, she had to lie in a large bath filled with water, which was kept at an even temperature by lamps placed beneath. One day just as the picture was nearly finished, the lamps went out unnoticed by the artist, who was so intensely absorbed in his work that he thought of nothing else, and the poor lady was kept floating in the cold water till she was nearly benumbed. She herself never complained of this, but the result was that she contracted a severe cold, and her father, an auctioneer at Oxford, wrote to Millais, threatening him with an action of £50 damages for his carelessness. Millais paid the doctor's bill, and Miss Siddal, quickly recovering, was none the worse for her cold bath.—Life of Sir John Millais.

## Tommy's Speech.

Sue (who has just been asked to play something on the piano)—I really can't play anything.

Tommy—But, I say, Sue, why don't you play that piece you spoke to me about?

Sue—What piece?

Tommy—Why, that one you told me to ask you to play when we had company 'cause you knew it better'n any of the others. I forgot the name!

Then Tommy was sent to bed.—Kans City Independent.

## Born to Dominate.

"Mrs. Crowder has been president of your club a long time."

"Yes; none of us could call her to order, so we decided we might as well let her dominate the rest of us!"—Chicago Record.

## A Blow to Superstition.

"Jimmy's rabbit got drowned in our bathtub."

"Goodness! Didn't he have his left hind leg with him?"—Indianapolis Journal.

## The Road to Success.

There is a mistaken notion that success in life is achieved only by hard effort. An "education" is not necessary to become successful in life, beyond thorough familiarity with the rudiments. An education comes to an industrious man as naturally as age. Ability to deliver orations is not necessary. Industry and honesty, which are easier than idleness and dishonesty, will achieve success for any man of ordinary ability. Success is easier than failure. Success seldom comes at once; it is a matter of years of good conduct and intelligent work.—Atchison Globe.

## BOERS STILL VICTORIOUS

## But the Game Is Far From Being one-sided.

Special to the JOURNAL

RENSBERG, February 12 (delayed)—Constant fighting has been going on here since last Friday. Both sides have scored, but the Boers today have undoubtedly the best of it. Last Friday they occupied Bastards Nek to the west and mounted a gun there. Later they seized Hobkirks Farm to the south and drove in the British outposts.

On Sunday the British artillery got the range on Bastards Nek and Hobkirks Farm and forced the Boers to evacuate both these positions. Part of the Australians and Tasmanians then reoccupied them. Early Sunday morning, however, the Boers returned unexpectedly to the attack and, by a flank movement, forced the British outposts to retire to Maeder's Farm. The Boers then reoccupied Bastards Nek and Hobkirks Farm which they now hold.

The British have also been obliged to evacuate Slingersfontein as the Boers were threatening their flank. The losses were heavy.

LONDON, February 14.—A dispatch to the Mail from the front states that the retirement of the British from Slingersfontain is a very serious affair. The fighting was heavy and the British losses were severe.

CAPE TOWN, February 13.—The foreign military attaches left here last night for Modder river with expectation of seeing battle.

LONDON, February 13.—Buller today reported following casualties at Potgeeters Drift from February 5th to 7th: officers killed 3, men 23; 249 wounded; 5 missing. Previous losses at this point, 233.

## Brief Bits of News.

The Anti-Trust League is in session in Chicago.

A daring and successful bank robbery occurred in Las Cruces, New Mexico. The cashier was held up in the middle of the day by two masked bandits.

The British ship County of Edinburgh has gone ashore off the New Jersey coast. It will probably be a total wreck.

The gunboat Princeton has raised the stars and stripes over two outlying islands of the Philippine group.

Pinniger, Druggist.

As a cure for rheumatism Chamberlain's Pain Balm is gaining a wide reputation. D. R. Johnston of Richmond, Ind., has been troubled with that ailment since 1862. In speaking of it he says: "I never found anything that would relieve me until I used Chamberlain's Pain Balm. It acts like magic with me. My foot was swollen and painful very much, but one good application of Pain Balm relieved me. For sale by Wm. Pinniger, Druggist."

**A SURE CURE FOR CROUP**

Twenty-five Years' Constant Use without a Failure.

The first indication of croup is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar roach cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croaky cough appears, it will prevent attack. It is used in many thousand homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual.

No other preparation can show such a record—twenty-five years' constant use without a failure. For sale by Wm. Pinniger, Druggist.

## A Night of Terror.

"A awful night was felt for the widow of the brave General Barnham of Mahone, Va., when the doctors said she could not live till morning," writes Mrs. H. L. Lincoln, who attended her that fearful night. "All thought that she must soon die from pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of consumption. After three small doses she slept easily all night, and its further use completely cured her."

This miraculous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50 cents and \$1. Trial bottles free at S. J. Hodgkinson's drug store.

## HAS MOVED TO

### ITS NEW HOME

Central Office of the Sunset Co. Has Been Moved to Second Street.

The Sunset company will be comfortably installed in its new office west of the JOURNAL building to-day. The old office in the Bank of Nevada building was closed last night.

To-day or to-morrow the new cards for subscribers will arrive and the seeming disorder that now exists will be straightened out. Indeed, the change that has taken place in the absorption of the old company by the new and the installation of new apparatus has progressed without any perceptible inconvenience resulting to subscribers.

The new company starts business with 218 subscribers. The town has been entirely reposed and wired and all the instruments put in are of the latest and best pattern.

C. M. Lyle of the Nevada Telegraph and Telephone Construction Co. will continue to act as local manager for the Sunset T. & T. Co. Miss Shields will have charge of the long distance business during the day and Miss Groton will handle the local work. Miss Lakin will be night operator and will attend to both local and long distance custom.

The new office has been admirably fitted up. The switchboard is arranged with a view to ease of manipulation and perfection of service. The wires enter the office in cables and lightning arresters have been placed so that no high currents, as the result of electrical atmospheric disturbances, will cause any inconvenience.

The wires are arranged on red, black and main circuits. In calling for any subscriber the name should not be used but the number of the circuit given on the card. Central should first be rung up as usual. After she replies the person calling should wait for a reply from the person called, unless the one called is on the same line, in which case central will request that the phone be hung up until the call be made.

At the conclusion of the conversation the same signal of one bell should be sounded.

Care should be taken not to leave the receiver off the hook as that will cut the entire line off and prevent any communication or ray of the phones involved until the carelessness is remedied.

## Business Briefs.

Goffin & Larcombe, the grocers, continue to do a good business in their line. One of the choicest stocks of groceries in Reno may be seen in their store.

Workmen are rushed to Bianchi & Co.'s macaroni factory. Orders are constantly being filled from points in Nevada and California.

Fred Horath of the Dewey saloon received choice shipment of liquors a few days ago.

The Novelty dry goods store will make an extended announcement to the readers of the JOURNAL to-morrow.

Otto Hartung does a thriving business. His is one of the model confectionery establishments of Nevada.

## Sign Your Name.

The JOURNAL has published a number of interviews on the "to be or not to be" of the fire alarm idea. These interviews might be continued indefinitely but they would probably grow wearisome to the reading public.

H. J. Thyes has offered to continue the record of expression of sentiment. In his place of business he has a communication that will be presented to the Board of Commissioners in the form of a petition. Sign your name either for or against.

## An Open Meeting.

J. W. Kinsey, Past Supreme Master Workman of the United States, addressed an open meeting of the Ancient Order of United Workmen in Masonic Hall last evening.

After the secret meeting of the order was ended the doors were thrown open to the public and a large assembly crowded the hall.

Mr. Kinsey spoke at length on the principles of the order. His address was a masterly and eloquent one.

## Coming Home.

Dick Joe and wife are working their way toward home and friends. A letter from Louisville, Kentucky, states that they have joined Primrose & West's minstrels, which aggregation will strike the coast in April.

## HAPPENINGS IN VERDI.

### Asbestos Quarry.

Wm. Elliott has some very good samples of asbestos, which in appearance is equal to some he secured in Canada recently. Mr. Elliott brought the samples from Plumas county, Cal., where it is said the deposit is inexhaustible.

An investigation of the property will probably be made by Mr. Elliott to determine its value.

### Move the Calaboose.

The town jail can be moved and a lot purchased for less than \$80. It now stands in a street adjoining residences. It seems that very little effort is being made in the matter.

### Known in Verdi.

C. Drayer, who was indicted by the grand jury for attempting to kill one Kitty Justy, figured in the justice court here some months ago. Having been arrested for cruelly treating a horse while intoxicated, he was given a light sentence.

At that time, through his recklessness, it took some eight or ten stitches to close a couple of cuts in the head of his companion, which were caused by a buggy overturning, throwing her upon some rocks.

E. M. Wees, who has been ill for some time in Reno, spent Sunday at home, returning Sunday evening.

### The Mountaineer Poet.

Will you hear Joaquin Miller at the Congregational church tomorrow evening? He is no orator and yet he is such an original genius and bright thinker, that people every where want to see and hear him.

Heard what the Placerville Argus says of him:

"At the Presbyterian church, Thursday night, Joaquin Miller was at his watchless best before a magnificent audience. In return for a splendid address he received a rousing ovation of appreciation and applause."

The press every where commends him. Lecture begins at 8 o'clock. Admission 50 cents.

### Notice to the Public.

KENO, Nev., February 12, 1900. You are hereby notified that on Monday the 19th day of February, 1900, I will enforce Ordinance No. 6 in relation to dogs in the town of Reno, Nevada. My office is at the Justice Court in Reno, Nevada. H. P. BROWN, Chief of Police.

### Death of a Little Child.

Yesterday death called the infant son of Mr. and Mrs. George J. Smith. The child was aged sixteen months.

The funeral will take place at 2 o'clock to-morrow from the family residence. Friends and acquaintances are respectfully invited to attend.
